SDM® SAFETY ASSESSMENT

Referral Name: ________________________________  Referral #: ______-'____-'____-

County: ________________________________  Worker: ________________________________

Is either caregiver Native American or a person with Indian ancestry? ☐ Yes  ☐ No  ☐ Parent Not Available  ☐ Parent Unsure

Date of Assessment: ______/_____/______  Assessment Type: ☐ Initial  ☐ Review/update  ☐ Referral closing/case closing

Names of Children Assessed: (If more than six children are assessed, add additional names and numbers on reverse side.)

1. ________________________________  4. ________________________________
2. ________________________________  5. ________________________________
3. ________________________________  6. ________________________________

Are there additional names on reverse? ☐ Yes  ☐ No

Household Name: ________________________________  Were there allegations in this household?  ☐ Yes  ☐ No

Factors Influencing Child Vulnerability (Conditions resulting in child’s inability to protect self; select all that apply to any child.)

☐ Age 0–5 years  ☐ Diminished mental capacity (e.g., developmental delay, nonverbal)
☐ Significant diagnosed medical or mental disorder  ☐ Diminished physical capacity (e.g., non-ambulatory, limited use of limbs)
☐ Not readily accessible to community oversight

SECTION 1: SAFETY THREATS
Assess household for each of the following safety threats. Indicate whether currently available information results in reason to believe a safety threat is present. Select all that apply.

Yes  No

☐  ☐ 1. Caregiver caused serious physical harm to the child or made a plausible threat to cause serious physical harm in the current investigation, as indicated by:
☐ Serious injury or abuse to the child other than accidental.
☐ Caregiver fears he/she will maltreat the child.
☐ Threat to cause harm or retaliate against the child.
☐ Domestic violence likely to injure child.
☐ Excessive discipline or physical force.
☐ Drug-/alcohol-exposed infant.

☐  ☐ 2. Child sexual abuse is suspected, AND circumstances suggest that the child’s safety may be of immediate concern.

☐  ☐ 3. Caregiver does not meet the child’s immediate needs for supervision, food, clothing, and/or medical or mental health care.

☐  ☐ 4. The physical living conditions are hazardous and immediately threatening to the health and/or safety of the child.

☐  ☐ 5. Caregiver describes or speaks to the child in predominantly negative terms or acts toward or in the presence of the child in negative ways AND these actions result in severe psychological/emotional harm, leading to the child being a danger to self or others.

☐  ☐ 6. Caregiver is unable OR unwilling to protect the child from serious harm or threatened harm by others. This may include physical abuse, sexual abuse, or neglect.
7. Caregiver’s explanation for the injury to the child is questionable or inconsistent with the type of injury, AND the nature of the injury suggests that the child’s safety may be of immediate concern.

8. The family refuses access to the child, or there is reason to believe that the family is about to flee.

9. Current circumstances, combined with information that the caregiver has or may have previously maltreated a child in his/her care, suggest that the child’s safety may be of immediate concern based on the severity of the previous maltreatment or the caregiver’s response to the previous incident.

10. Other (specify): ______________________________________________________________________

Safety Decision: If no safety threats are present, complete the safety decision below.

Safe. No safety threats were identified at this time. Based on currently available information, there are no children likely to be in immediate danger of serious harm. Complete the investigation and the risk assessment as required.

SECTION 1A: CAREGIVER COMPLICATING BEHAVIORS
If yes is selected for any safety threats above, indicate whether any of the following behaviors are present. These are conditions that make it more difficult or complicated to create safety for a child but do not by themselves create a safety threat. These behaviors must be considered when assessing for and planning to mitigate safety threats with a safety plan. Select all that apply to the household.

- Substance abuse
- Domestic violence
- Mental health
- Developmental/cognitive impairment
- Physical condition
- Other (specify): ______________________________________________________________________

SECTION 2: HOUSEHOLD STRENGTHS AND PROTECTIVE ACTIONS

Household Strengths: These are resources and conditions that increase the likelihood or ability to create safety for a child but in and of themselves do not fully address the safety threats.

Protective Actions: These are specific actions, taken by one of the child’s current caregivers or by the child, that mitigate identified safety threats in the household.

Household strengths and protective actions should be assessed, considered, and built upon when creating a safety plan. Select all that apply to the household.

### Household Strengths

**Select all that apply**

- Child problem solving
  - At least one child is emotionally/intellectually capable of acting to protect him/herself from a safety threat.

- Child support network
  - At least one child is aware of his/her support network members and knows how to contact these individuals when needed.

### Protective Actions

**Select all that apply**

- At least one child, in the past or currently, acts in ways that protect him/herself from a safety threat(s).
- At least one child has successfully pursued support, in the past or currently, from a member of his/her support network, and that person(s) was able to help address the safety threat and keep the child safe.

### SECTION 3: IN-HOME PROTECTIVE INTERVENTIONS

If safety threats have been identified in the household and after consideration of child vulnerabilities, household strengths, and protective actions, it is determined that a safety plan will allow the child to remain in the home, the safety decision is "safe with plan." Select the decision below. If a safety plan that would allow the child to remain in the home safely cannot be created, go to Section 4.

#### SAFETY DECISION

- **Safe with plan.** One or more safety threats are present; however, the child can safely remain in home with a safety plan. In-home protective interventions have been initiated through a safety plan and the child will remain in the home as long as the safety interventions mitigate the safety threats. Select all in-home interventions used in the safety plan.

  - 1. Intervention or direct services by worker. (DO NOT include the investigation itself.)
  - 2. Use of family, neighbors, or other individuals in the community as safety resources.
  - 3. Use of community agencies or services as safety resources.
  - 4. Use of tribal, Indian community service agency, and/or ICWA program resources.
  - 5. Have the caregiver appropriately protect the victim from the alleged perpetrator.
  - 6. Have the alleged perpetrator leave the home, either voluntarily or in response to legal action.
  - 7. Have the non-offending caregiver move to a safe environment with the child.
  - 8. Legal action planned or initiated—child remains in the home.
  - 9. Other (specify): 

---

### SECTION 4: PLACEMENT INTERVENTIONS

#### Safety Decision

- **Unsafe.** One or more safety threats are present, and placement is the only protective intervention possible for one or more children. Without placement, one or more children will likely be in danger of immediate or serious harm. Check one response only.

  - 10. Have the caregiver voluntarily place the child outside the home, consistent with WIC § 11400 (o) and (p).
  - 11. Child placed in protective custody because interventions 1–10 do not adequately ensure the child’s safety.
